

# Klargester PSTOR E Horizontal Range

Our new extended PSTOR Horizontal Pump Range, is engineered for reliable performance offering complete peace of mind.

The new range offers a simplified and economic alternative providing two new options including a **1.8m** and **2.8m** diameter tank size.

In the event of power supply failure, this packaged pumping station swiftly initiates a process to segregate liquids and solids into distinct chambers, enabling temporary waste storage for a period of up to 24 hours. Upon power restoration, the system seamlessly resumes standard pump operations, ensuring uninterrupted functionality.

## Why choose a Klargester Pump Station?

# Technical Specification

PSTOR 18 E Range							
Model	Max Capacity (litres)	Overall Diameter (mm)	Length (mm)	Inlet pipework (Standard Options)	Inlet Invert Depth* (mm)	Outlet Invert Depth (mm)	Overall Height (mm)
PSTOR18E-01	8040	1912	3238	Ø110mm	600	700	2400
PSTOR18E-02	10010	1912	3970				
PSTOR18E-03	12140	1912	4750	Ø160mm	1000	1100	2800
PSTOR18E-04	15080	1912	5788				
PSTOR18E-05	19340	1912	7386	Ø200mm	1500	1600	3300
PSTOR18E-06	25300	1912	9435				
PSTOR18E-07	29550	1912	11012	Ø250mm	2000	2100	3800
				Ø315mm			

\* Note: Inlet inverts are available for all tank range options

PSTOR 28 E Range							
Model	Max Capacity (litres)	Overall Diameter (mm)	Length (mm)	Inlet pipework (Standard Options)	Inlet Invert Depth* (mm)	Outlet Invert Depth (mm)	Overall Height (mm)
PSTOR28E-01	18213	2820	4317	Ø110mm	1000	1200	3420
