

# GRP Enclosure with built in tank and booster pump

# TANKS DIRECT

## GRP Enclosure with built in tank and booster pump

A single piece self contained pump station combining the tank compartment for water storage with the dry compartment which houses the pump set and / or any other equipment.

All pipework connections between the tank compartment and pump set within the unit.

Requires only inlet, outlet and overflow and the electrical supply connecting to and from the unit, ensuring "plug and play" easy site installation.

Large lockable access door for increased security.

Most units can be positioned using fork lift trucks, larger units may require crane lift.

Available with AB air gap option.

Available with actual storage capacity options of 2000, 3000, 5000 or 7000 litres.

Image shown - Twin booster pump option

### Optional items available:

- Aylesbury Keraflo Delayed Action Float Valve
- Fitted with Breaker, RCD Protected Galvalvanised Steel Grid
- CAT 5 Protection
- Inlet, overflow kits various sizes
- Pre-piped option

To enable us to assist with your requirements please contact us providing the following information:

- Actual storage capacity required
- Connection type and sizes required
- Details of any access restrictions to enable positioning of the unit
