

GSP2D - Galvanised Steel Spill Pallet 2 Drum Capacity

Manufactured from 2mm structural grade galvanised steel this spill pallet is designed to accommodate 2 x 205ltr drums and has a sump that complies with the 110% rule on sump capacities.

The unit is fitted with four galvanised legs to ensure the underside of the sump is not in contact with the ground and aid movement/positioning by pallet truck or fork lift truck.

Note: This unit will be delivered by an articulated vehicle, therefore please ensure that a vehicle of this size can access your premises before ordering and advise us accordingly.

You will require an appropriate size/capacity fork lift truck to offload this item from the delivery vehicle. Our standard delivery doesn't include any offloading.
