SIGMA SHALLOW DIG SEPTIC TANK

Kingspan Klargester have been leading specialists in the design and manufacture of complete off-mains solutions for over 50 years. We not only manufacture our own products, we work closely with regulatory authorities and industry bodies to ensure total compliance in every component, design and installation procedure.

Our dedicated technical team of engineers have recently completed the design and testing process of our next generation shallow dig septic tank range.

Sigma will drastically reduce the time and cost of a septic tank installation.
