

# AQUAMAXX

## COMPACT 200L, 300L & 450L

The Aquamaxx has been specifically designed for smaller properties with low water pressure and flow where space is at a premium. Areas such as apartments and cottages and townhouses would benefit the most from a compact system.

The Aquamaxx Compact fits into the space of a standard kitchen unit as they are similar in size to a washing machine so can be hidden away behind a cupboard door. The electronic controller will automatically start and stop the pump when a drop in pressure is sensed i.e., a tap or outlet is opened and closed.

### Key Features

- Non-corrosive holding tanks (WRAS approved material).
- Pre-fitted WRAS approved fill valve.
- WRAS approved submersible pump.
- Integral overflow weir.
- Minimal Installation required.
- Digital display flow controller.
- Dry run protection with auto restart time delay..

### System Connections

Inlet: ½" BSP  
Outlet: 1" BSP  
Overflow: 1½"

### Technical Specifications

Model	Fixed Speed Option	Variable Speed Option
Power Supply	230 ~ 1ph ~ 50hz	230 ~ 1ph ~ 50hz
Pump Model	IDROGO 80/15	IDROGO 80/15
Controller	Fixed speed E-Series	Variable Speed E-Series
Current Input	3.1amp	3.1 amp

### Flow Characteristics

Pump Option	Power		Pressure	2 Bar	3 Bar	4 Bar	5 Bar
	KW	HP					
Fixed & Variable Speed	1.1	10	Q L/min	110	95	80	55
